The Safest Investment Are those that do not fluctuate during dis-turbed conditions of the money or stock mar-kets. First deed of trust notes (first mort-gages), well secured on real estats in the District of Columbia, constitute "git-edge" investments, and they do not depend upon the financial responsibility of individuals or cer-porations for their stability. We can supply such investments in amounts from 1500 up-ward. Send for booklet, "Concerning Leases and Investments."
